

Bali Moon

72 x 72

purewater baths™
engineered by Sanijet®

Peace and Tranquility

Smooth and round, like a full moon glowing over the exotic island of Bali, this spacious spa tub is perfect for couples bathing. The Bali Moon was created by Cary Collier, an internationally renowned spa designer known for artfully blending spa settings with natural environments. Soak in our largest round Pipeless™ spa bath for a truly authentic spa bathing experience that will elevate your senses, relax your body and soothe your soul.

- Our largest round spa bath is designed for couples and can accommodate two or more bathers
- **Elite Hydromassage System** features 8 or 12 ultra-quiet Pipeless™ Jets
- For drop-in and undermount installation with an end-drain location
- Available with ChromaSoothe lighting and decorative drain with integral overflow

The Pipeless™ Advantage

Every Purewater® Baths spa bath features the purity of Pipeless™ technology. With no pipes to trap bath residue and foster the growth of harmful bacteria commonly found in most ordinary piped and air-bubble systems, our patented Pipeless™ system ensures hospital-grade disinfection. Every time you slip into a Purewater® Bath it's pure, clean and sanitary – exactly the way bathing is supposed to be.

Smooth, Quiet Operation

Whisper quiet and free of vibration, Purewater® Baths produce half the noise of conventional piped whirlpools and a fourth as much as air-bubble baths, ensuring your spa bath experience is peaceful and relaxing.

True Spa-Quality Hydromassage

Envelop your body in a soothing cushion of relaxing hydromassage. Purewater® Baths has combined simple water flow with advanced technology and complete hydromassage control to create a genuine, spa-quality bathing environment. Whether soaking or using active hydromassage, enjoy your favorite essential oils and thermal bath salts with confidence – any residue left behind can be completely cleaned after each use.

The Bali Moon is exclusively available with the **Elite Hydromassage System** featuring multiple preprogrammed modes designed to deliver maximum benefit at the touch of a button.

Standard Features

- Pipeless™ spa baths can be thoroughly cleaned in approximately five minutes
- Purewater® Baths Pipeless™ hydromassage system disinfection protocol is independently certified by NSF International
- Intuitive electronic command panel with treatment timer automatically turns the spa bath off after 20 minutes of continuous use
- Requires no unsightly access panels and key components are accessible from inside the bath for easy maintenance
- Durable, easy-to-clean, lustrous acrylic construction
- Custom, pre-leveled ABS base for superior installation
- Extensive protection with the Purewater® Baths Limited Warranty
- Available in today's popular colors: White, Biscuit and Black
