CLINICIAN PREMIERE

Our most popular model just got better! The Clinician Premiere's fine handmade furniture construction sets Oakworks® Spa Tables apart from the rest. It offers the perfect blend of beauty, function and value with options to have it reflect your spa's aesthetic. Now it comes standard with a removable and replaceable top!

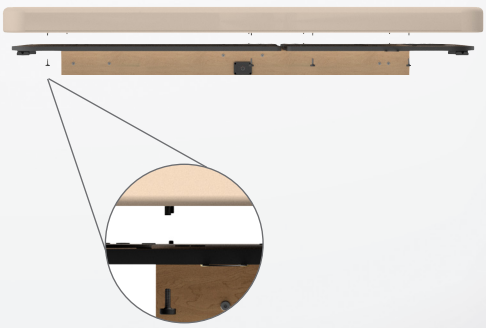

Flat Top

Electric Salon

New! One Piece Removable Pad

Padding and fabric on tables never last as long as the bases, and occasionally they get damaged; in the past you had to replace the whole table. Our new design features finger knobs that can be removed in minutes, allowing you to remove the foam and fabric and install a new one without any special tools so your table will be serviceable for much longer.

FEATURES

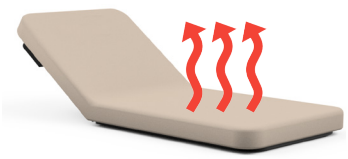

Hot Towel Cabi Ready

The hot towel cabi keeps towels warmed at a constant temperature. Perfect for any spa or salon.

Standard Hand Control

Now standard, this control has the ability to change two settings at once with a single button. The simple interface makes positioning clients fast and the new electronics are quiet and smooth in operation.

Integrated Heated Top (Optional)

Our new system is imbedded in the foam, creating a more even heat, and has three settings. Designed originally to be used in car seats and hospital beds, the heating element automatically shuts off after 10 hours providing peace of mind for safety and energy conservation.

ADJUSTABLE SIDE ARMREST

These versatile and comfortable removable arm rests feature a wide range of positions. They always stay level, regardless of the backrest angle. They offer comfortable positioning and can be moved completely out of the way to allow guests to get on and off the table easily.

BOIANCE SHELF SUPPORT

The shelf and bracket used together allow you to create the perfect place for clients arms when working on their back. The shelf can also be used alone as a head support for facials and other aesthetic treatments. The shelf is designed to allow therapists to relax their shoulders while working on clients, minimizing stress and injuries.
