Fully integrated heating

Hydraulically-adjustable face support

## MESA

#33077-XX

The Mesa is a high-value treatment table that is full of high-end features. At a fraction of the cost, we have created a table with features found on costly high-end treatment tables. Features include motorized height and top adjustments, heated top, one-piece memory foam cushion, ultra-soft upholstery, drop armrests, and a storage drawer. Supported by a sturdy wood base, the Mesa creates a very comfortable and functional treatment table that is attractive and durable while remaining affordable.
