HEALING HUMANITY THROUGH TOUCH™

FACEPILLOW™ COLLECTION

FacePillow™

Our product designers have fused the finest materials available today, a proprietary blend of blown gel and polyfibers we call Cloudfill™ to create a downy soft, yet supportive cushion. Our FacePillow™ comes upholstered in our durable and comfortable Comfort-Flex™ upholstery with premium double stitching.

Strata FacePillow™

We enhanced the comfort of our Cloudfill™ technology by adding a layer of sumptuous viscoelastic memory foam to create the Strata FacePillow™, the most comfortable, adaptive, stress-relieving face pillow our industry has ever seen.
