**Attention**

Only professional, state-licensed estheticians are allowed to operate this equipment. Any violations will void the warranty and operator shall be responsible for any damages to the machine and/or clients.

**About this Manual**

Before installing and using this unit, please read this manual carefully. Be sure to keep it available for later reference.
IMPORTANT SAFEGUARDS
READ ALL INSTRUCTIONS BEFORE USING

Caution and proper procedures must be practiced at all times when using electrical appliances. When using electrical appliances, basic safety precautions should always be followed, including the following:

- Do not use appliance for other than intended use.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or appliance in water or other liquid.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance has been damaged in any manner. No user serviceable parts inside. Return appliance to the nearest authorized service facility or call our toll-free customer service number 1-888-731-6688 for information on examination, repair, or adjustment.
- The use of accessories and/or attachments not recommended or sold by the appliance manufacturer may cause injuries.
- Do not use outdoors. This appliance is intended for indoor use only.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Close supervision is necessary when any appliance is used by or near children.
- Do not leave the appliance unattended when switched on.
- Extreme caution must be used when moving an appliance containing hot liquids.

**WARNING**
TO PREVENT ELECTRICAL SHOCK, UNPLUG BEFORE CLEANING.

- If the supply cord is damaged, it must be replaced by manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- The appliance is not intended to be operated by means of an external timer or separate remote-control system.
- The temperature of accessible surfaces may be high when the appliance is operating.
- If using an extension cord, the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance.

**CAUTION**
TO AVOID ELECTRICAL SHOCK, DO NOT IMMERSE IN WATER.

**CAUTION**
TO REDUCE THE RISK OF ELECTRICAL SHOCK, DO NOT OPEN COVERS. NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

**OPERATING INSTRUCTIONS**
- Place the unit on a well ventilated flat, sturdy surface away from heat sources. This product should not be used in the immediate vicinity of water, such as bath tub, washbowls, swimming pool etc. where the likelihood of immersion may occur.
- Plug cord into a rating 120V AC power outlet

**PREPARATION**
1. Position the vaporizer steam arm so that the steam will travel up the torso area towards the chest and face.
2. Cover the client’s upper chest area with towel or cloth to absorb excess moisture.
3. Remove glass jar. Hold the jar with one hand and use the other hand to simultaneously turn the retaining screw knob. Swing the brace away and carefully remove the glass jar.
4. Check for the gasket. The gasket is located on the underside of the vaporizer. Its function is to help seal the water jar and to prevent leaking.
5. Pour distilled water into the glass jar. To prevent water from spouting do not exceed the top red line.

**OPERATION**
1. Press the ON button. The vaporizer will beep once to let you know that it is ON/OFF.
2. Set vaporizer to the desired time. The default time is set to 30-min. When setting the timer for time longer than the default 30-min, please mind the water level.
3. Wait 7-10 minutes for steam to appear. Wait until the steam is a steady fine mist before directing the steam towards the client.
4. Turn the ozone switch on as needed.
5. Adjust the steam nozzle to the correct distance, keeping a minimum distance of 12 inches from face. Let the steam flow out in an upward direction traveling from the chest and up towards the face.

**UNPACKING**
BE SURE TO REMOVE ALL PACKING MATERIAL BEFORE USE.

**WARNING**
USE ONLY DISTILLED WATER WITH THIS MACHINE. DISTILLED WATER SHOULD BE USED TO HELP PROLONG THE LIFE OF THE MACHINE. DO NOT RUN CHEMICALS THROUGH THE APPLIANCE SUCH AS CLEANING AGENTS OR AROMA ADDITIVES. THESE CLOG THE WATER WAYS AND LEAVE DEPOSITS.

DO NOT TEST/RUN THE APPLIANCE DRY.

TO PREVENT WATER FROM SPOUTING - ALWAYS MAINTAIN THE DISTILLED WATER LEVEL AT THE PROPER LEVEL BETWEEN THE TOP AND BOTTOM RED LINES.

TO EXTEND THE LIFECYCLE OF THE HEATING ELEMENT AND TO PREVENT THE GLASS JAR FROM CRACKING, DO NOT ADD COLD WATER WHILE WATER IS HOT. WAIT FOR WATER TO COOL BEFORE ADDING MORE WATER.
OZONE
Ozone is a form of oxygen sometimes used as a form of disinfectant. The ozone function in the facial steamer is an option. Check with applicable regulatory agencies such as the Department of Health and the Cosmetology State Board concerning the use of ozone in your area. To activate the ozone function, use the on/off switch located next to the timer knob. When ozone is in use, the green activate lamp will light up.

SWIVEL STEAM ARM
This unit is equipped with a swivel steam arm. Do not over turn or use excessive force when adjusting the steam angle. Adjust position before steam is active.

CAUTION: Use care when adjusting steam arm during steaming. Steam can be hot.

CAUTION
HEATING ELEMENT, WATER JAR, AND STEAM MAY BE HOT. USE EXTREME CAUTION WHEN REMOVING OR HANDLING. ALWAYS USE PROTECTIVE HEAT RESISTANT GLOVES OR MITTS TO AVOID STEAM OR OTHER BURNS. FAILURE TO HEED WARNINGS MAY RESULT IN HARM OR SERIOUS INJURY.

CLEANING & MAINTENANCE
Vaporizer should be cleaned and inspected on a daily basis or once before each day’s use.
1. Turn OFF the unit by using the power switch.
2. Unplug the cord from the power outlet.
3. Wait for contents to cool before handling. Vaporizer parts may be hot.
4. Check to see that the steamer is in good working condition and that there are no exposed parts or wires.
5. Check that the steamer is securely mounted on its stand.
6. Check for broken jars, parts, and etc.
7. With a soft cloth, wipe down the internal surfaces. Do not use harsh chemicals or abrasives. To clean the exterior, use a soft cloth and mild soap.

TROUBLE SHOOTING
When machine fails to work properly, use the following directions to detect the cause of the problem. If the problem persists, please contact your dealer for assistance.

✓ The vaporizer is not turning on.
  ➢ Check the power cord for proper connection.
  ➢ Check the power source by connecting another electrical appliance to the AC outlet.
  ➢ Some units are equipped with a heat-sensing thermostat safety fuse. If your unit(s) becomes too hot or if the water level falls below the red line, the thermostat will shut off the heating element. After cooling to the proper temperature, the element will operate normally. Wait until both the heating element and glass jar cools before adding water. Turn OFF the vaporizer. Wait 5-10 minutes. Restart the vaporizer.

✓ There is power but no steam
  ➢ Make sure the water level is between the top and bottom red lines.
  ➢ The steamer will beep when there is improper water level.
  ➢ If the water level is below the lower red line, the thermostat may burn out. If the thermostat has burned out, the power lamp will not light and the steamer will not turn on. Please contact an authorized agent for repair.

✓ There is water leaking or steam escaping from the water jar.
  ➢ Wait until the jar is cooled.
  ➢ Tighten the retaining screw located beneath the jar.
  ➢ Check that the gasket ring is in place.

✓ There is water spitting.
  ➢ Water may spit at the beginning/ending of steaming.
  ➢ Allow the unit to heat up before directing the steam arm.
  ➢ Maintain the proper distance, keeping a minimum distance of 12 inches from the client’s face or other area(s).

WARRANTY
A. 1-Year warranty against manufacture defect
B. The glass jar is not a warranty item
C. The thermo sensors and safety-fuse(s) are not warranty items.
1

a. Assemble the crossbars perpendicular to one another.

b. Check to see that all four wheels are facing the same direction.

c. Insert the plastic crown atop the assembled cross bars.

2

a. Remove preassembled screw and washer from the bottom of the telescoping pole.

b. Match the telescoping pole to the center of the cross bar assembly.

c. Insert the screw and washer to secure leg assembly.

d. Check for wobbling parts. If wobbling, tighten all screws.

**CAUTION**

THE TELESCOPING POLE HAS STRONG SPRING TENSION.

DO NOT LOOSEN TENSION KNOB UNTIL THIS UNIT IS FULLY ASSEMBLED WITH THE VAPORIZER TOP SECURELY MOUNTED.

FAILURE TO FOLLOW DIRECTIONS MAY RESULT IN SERIOUS BODILY INJURY.
