## **HOT STONES**

Natural gemstones are heated to release far-infrared rays and negative ions (and provide natural healing experience). Heated pressure along the body provide multiple health benefits.

## **FAR INFRARED**

Advanced heating systems and natural gemstones deliver far-infrared rays (FIR) deep into the body, promoting temporary relief from stiffness and joint pain, and elevating muscle relaxation.

## **NEGATIVE IONS**

Negative ions are found in abundance in the mountains, near waterfalls and beaches. They are also naturally emitted from gemstones. When your mat is turned on, the negative ion output significantly increases.

## **PHOTON LIGHTS**

The photon lights in HealthyLine products use visible red light at a wavelength of 660 nm, that reaches just below the surface of your skin, penetrating the skin on a cellular level. Photon light therapy may help with skin rejuvenation and more.

## **PEMF THERAPY**

Our PEMF system simulates the Earth's electromagnetic field, which is delivered directly to your body. PEMF therapy is the process of supplying the body with much-needed magnetic fields, by passing the electrical pollution that affects our bodies on a daily basis.

## HEATING MATS

We've created over 100 models that accommodate various needs and desires. Designed to enhance wellness, our devices reduce pain, improve circulation, speed up metabolism, and much more.

## BEDDING

Each comforter is uniquely engineered to offer the benefits of natural tourmaline gemstones, known to emit a higher level of both FIR and negative ions. Additionally, to make you rest even more efficient, 100 permanent magnets\* (3000 milliGauss strength each) evenly distributed under the cotton shell.
